★ **EXCLUSIVE FEATURE –
182 Disney designs**

Brimming with 182 Disney designs, including 30 magical patterns not found anywhere else, it's now even easier to create crafting magic.

★ **NEW FEATURE – rotary auto blade**

Have even more fun with fabrics! The SDX2250D comes with a rotary auto blade attachment and 63 brand NEW rotary designs.

★ **TOP FEATURE – built-in scanner**

The ScanNCut is the only crafting machine to feature a 600dpi scanner. You can scan virtually anything – a drawing, a cherished photo, even material offcuts, so there's less wastage! Transform your scans into cut, draw, foil, pierce or emboss designs.*

★ **TOP FEATURE – standalone**

Use the large 5" colour touchscreen to edit, zoom, customise and even create your own designs, with no PC or mobile needed. Save designs to your machine's memory for future use.

★ **TOP FEATURE – blade
sensor technology**

Brother's innovative auto-blade sensor automatically detects material thickness, taking away tricky guesswork. Get the perfect cut, every time.

★ **TOP FEATURE – cut up to 3mm thick**

Foam, felt, fabric, leather, balsa, card, paper – you name it, you can cut it (soft materials up to 3mm thick).

*Additional kits may need to be purchased to unlock all abilities

Accommodates 305 x 305mm (12" x 12")
and 305 x 610mm (12" x 24") cutting mats

Included accessories

Stylus and spatula holder

Two USB ports for PC connection and media

Handy accessories storage compartments

Whisper quiet

Even though the Brother ScanNCut DX range is a mighty and powerful cutting machine, it is truly whisper quiet when cutting which makes it perfect to use anywhere!

Cut out the hassle

Remove the hassle of hand cutting designs from paper and fabric. Just scan, highlight and cut. Perfect for those who may have difficulty holding scissors or cutting knives.

Something for everyone

With 1,485 built-in designs (including 182 Disney designs, 170 quilt and appliqué patterns, 17 built-in fonts PLUS 63 new rotary blade designs on activation card, your SDX has something to suit every creative occasion.

Connect your craft room

With wireless connectivity you can send designs directly to your ScanNCut from your free CanvasWorkspace account, no wires or flash drives needed.

Convert embroidery designs

Using the built-in USB port, you can import PES/ PHX/PHC files so you can turn treasured embroidery patterns into matching stickers, line art, cutting guides, embossing or foiling projects.

Additional kits may need to be purchased to unlock all abilities

SVG data readability

Your SDX2250D can read SVG files directly, so there's no need to spend time converting first. More time crafting, less time converting.

Create Magic moments! 182 Disney designs

Race to bed like Disney and Pixar's Lightning McQueen. Have fun with snow and glitter like Disney Frozen's Elsa and golly gosh bring Mickey Mouse and friends to life across quilts, cards, appliqué patches and any other craft project you can dream of.

Make even more magic creations

With Brother's ScanNCut Disney Content cards you can breathe even more magic into your handmade creations. Including the Disney Vinyl Auto Blade Collection and Roll Feeder Collections, plus loads more!

Additional purchase necessary

Get rolling...

Expand your creative possibilities with the roll feeder 2* for the ScanNCut DX range. Create longer designs for home décor, or shop windows. It's the perfect tool for cutting vinyl stickers and heat transfer materials. And with the roll feeder 2*, you don't even need to use a mat!

*Additional purchase necessary.

Supersize me!

Now it's super easy to go supersize when cutting vinyls. Combine your roll feeder 2 with the Vinyl Auto Blade*, which includes great new features like the tiling function which allows you you to create unlimited sized vinyls and the handy weeding box function for easier and more efficient weeding!

Handy half-cut function

The half-cut function is perfect for cutting stickers and heat transfer materials, like flex- and flock foils. Save time and money with the ScanNCut's Auto Layout function. Pair with background scanning to create designs that use every inch of your sticker sheet – perfect for hobbyists and business owners alike. Combine with the roll feeder 2 attachment* to cut long designs out of rolled materials without the need for a mat.

Calling all quilters!

The SDX2250D comes standard with 170 built-in quilt blocks and appliqué designs – incl. 30 brand new Disney appliqué designs!

But that is not all! The SDX2250D also comes with the Rotary Blade Kit which includes a rotary blade PLUS 63 new rotary blade designs. Your ScanNCut can even draw in and cut your desired seam allowance so you can cut and sew perfect quilting pieces, every time!

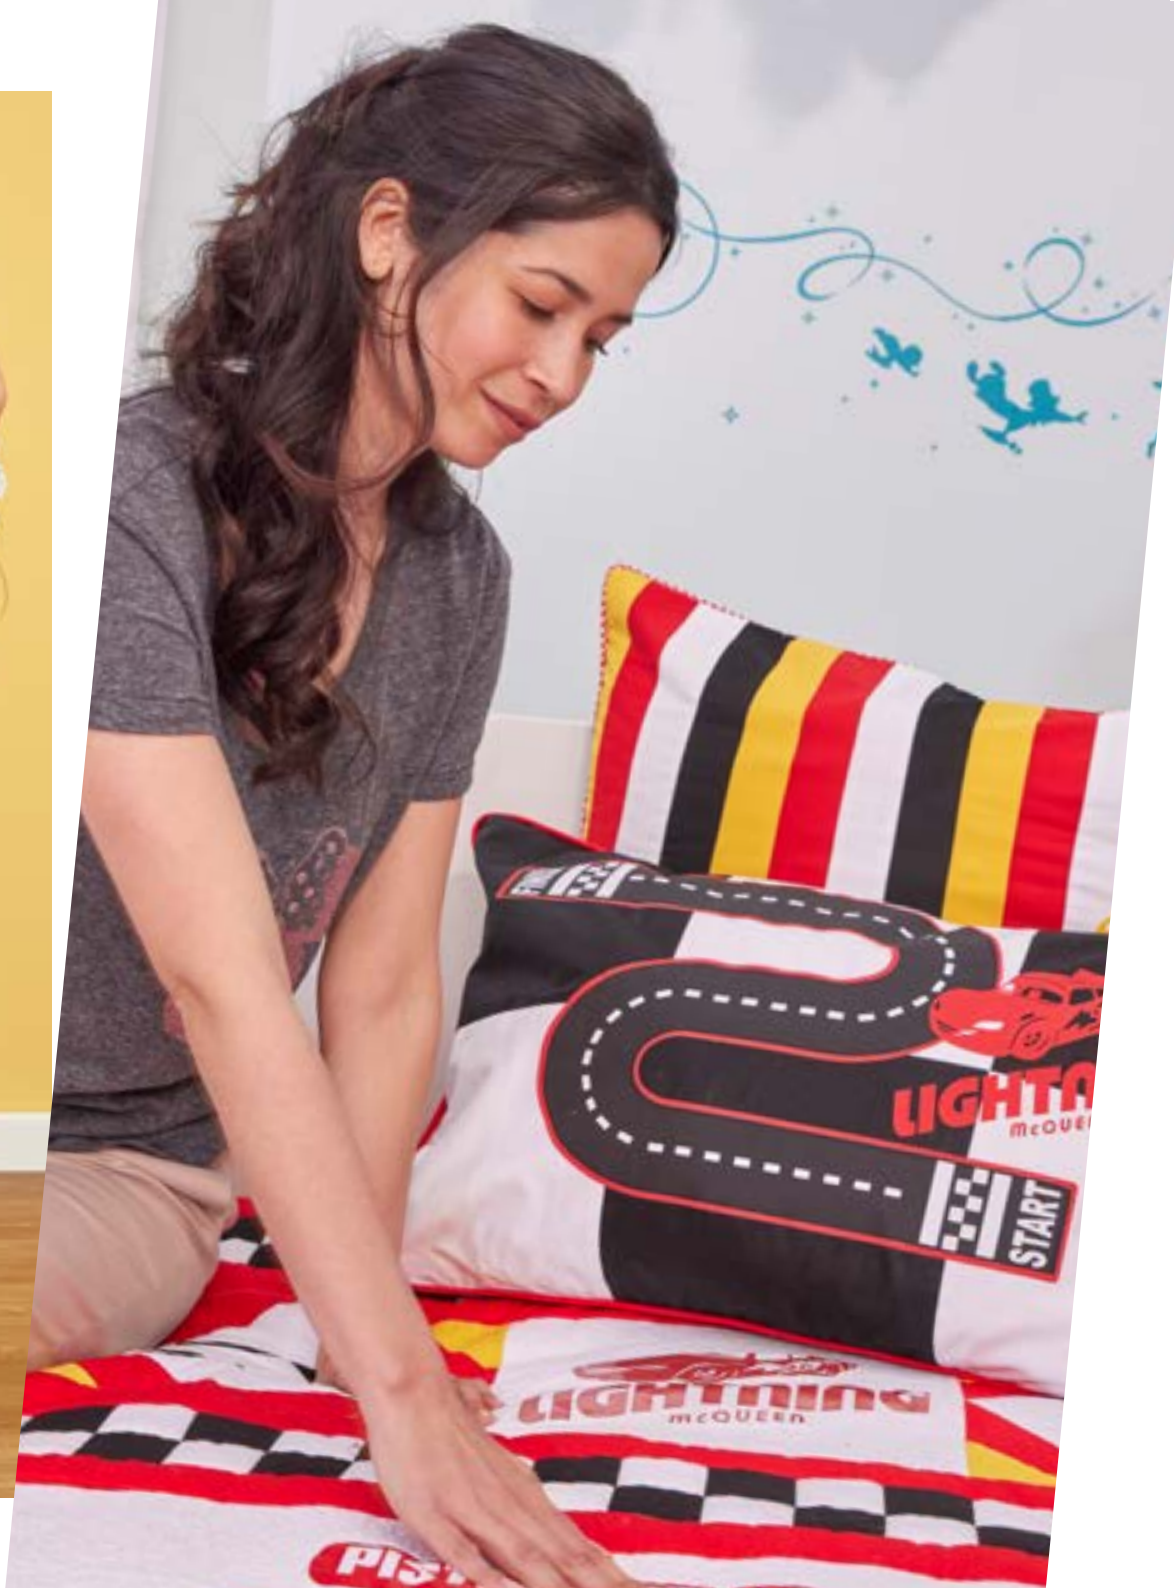

NEW Rotary auto blade

The ScanNCut DX SDX2250D comes with the new rotary auto blade, which have some excellent benefits.

- Easily cut curved designs – no more miscuts with scissors or traditional rotary cutters.
- Clean cut – super sharp cuts keep fabric fraying to a minimum.
- Nice and steady - no need for backing or stabiliser when you're cutting.
- More fabric, more fun! Cut a variety of fabrics like felt, organza, jersey, lace, cotton and much more. What will you cut first?

And the **best** part? Thanks to the ScanNCut's revolutionary auto pressure blade technology there's no need to fiddle with cut settings – your ScanNCut does it all for you. More time creating, less time setting up!

Get extra with your Luminaire Innov-is XP1

Got an embroidery design that you love? Using the exclusive **My Connection*** function, send designs from your XP1 wirelessly to your SDX2250D and turn them into patterns to be used on your ScanNCut. Love a ScanNCut pattern and want to see it stitched out? Send it to My Design Center on your XP1 and create an embroidery design around it.

*To use My Connection, software version should be 1.61 or higher. My Connection function is only compatible between SDX1250 / SDX2250D models and Luminaire Innov-is XP1

**Additional purchase necessary

Never stop creating**
